

January 11th, 2010

Dear Members of _____,

We, at KidSport Timmins, want to thank you for your consideration in the past. Once again KidSport Timmins is seeking donations to keep helping disadvantaged children involved in sport and recreation programs in Timmins. We are open to any kind of publicity or promotion you may desire with your donation.

Each year the demand is increasing. The average family income of those we have assisted to date is \$ 15,640.98. We have helped over 850 children in Timmins participate in sports activity and have provided over \$200,000.00 in registration and equipment grants. This year economic factors will necessitate 2010 being our busiest and most productive year in aiding the needy.

Timmins KidSport's mission is to help children overcome economic barriers which limit or prevent their full participation in sport and recreation. We believe all kids should have the opportunity to play and to enjoy the many benefits of sport. We believe the ability to pay should not decide which children can play.

We are requesting that your service organization consider sponsoring a number of children each year through a generous and needed donation. Our grant is approximately \$350.00 per child per year. We have a presentation explaining the program to present to your organization, if necessary.

No act of kindness is too small to be undertaken or appreciated. The children of Timmins count on your kindness.

Sincerely,

Mario Bertotti
President
KidSport™ Timmins
